## **GI Issues, Sinuses, Neck & Shoulder Pain**

I no longer have to take Sudafed on a daily bases for my sinuses. I have not had to buy any over-the-counter meds for my stomach or neck pain. After adjusting my diet to a healthier, no processed or high sugary foods, I have noticed a significant loss in weight as well. I intend to continue to follow the Doctors healthy living advice and regularly get adjusted to maintain the positive effects I have had.

## Extremely Excruciating Low Back Pain

I came to NuWave because I had been dealing with extremely excruciating low back pain. I hadn't been able to walk without the use of a cane for over two years. In addition, it got to the point where I was unable to sleep at night. Being from New York, I had no idea who to go to, so I relied on Google and found Dr. Brown and Dr. Desrosiers. I read a few of the reviews and decided they were the Chiropractors I needed. After about a month of care, they not only have given me almost complete pain relief, but the best part is I am finally walking without a cane, and I am able to sleep without experiencing pain! I plan on having my Chiropractor in New York follow the same regimen that the doctors have been using. Then when I come back next year, I will come back for maintenance care!

## Auto Accident: Neck, Low back, Chest, & Wrist Pain; Brain Fog, Dizziness, Concentration issues

I had experienced a horrible car accident and as a driver, I suffered from many physical injuries. I suffered from immense pain and discomfort in multiple areas of my back and neck, chest, as well as in my wrist. I had difficulty dealing with brain fog, dizziness, and inability to concentrate. Much of my pain increased as each week after the accident went by. Prior to receiving chiropractic care at NuWave, I was regularly receiving physical therapy, acupuncture, and I also saw a chiropractor twice. My appointments provided some temporary, immediate relief and the other health providers were genuine and attentive in their care. However, my time at NuWave was all that and more. The chiropractic treatment I received here has provided me with significant, long-lasting improvement, which has also improved my mental health and instilled hope in my ability to fully recover to the whole self, better than how I felt before the accident, a new level of health. On top of that, I have gained a much deeper knowledge of my body and health through the testing and consultation provided during my time at NuWave. It's been a unique and effective experience.
